- Designing, querying, and managing databases using SQL, MySQL, and MS Access for data-driven solutions.
- Automation / Scripting Specialist – Developing Python, Bash, or Lua scripts to enhance efficiency.

SOFTWARE ENGINEERING EXPERIENCE

MTA HQ/BSC   **New York, NY**
Human Resources Business Partner Intern   Jun 2024 - Aug 2024

- Designed a centralized HR inquiry tracking database, consolidating data previously stored across three separate platforms.
- Collaborated with HR leadership to define data requirements and structure fields to track inquiry type, department, resolution time, and completion status.
- Created automated reports and statistics to visualize requests, department workloads, and average resolution times.
- Presented weekly progress updates, incorporated supervisor feedback, and implemented interface and reporting improvements for ongoing usability.
- Trained four team members, HR Business Partner team and supervisor, on database use and data entry procedures.

Freelance   **New York, NY**
Independent Software Developer   Jul 2020 - Aug 2021

- Oversaw an international team of resellers, advertisers, and content creators to attract worldwide customers.
- Managed a global project with nearly 300 purchases worldwide.
- Mentored aspiring programmers in API integration and scripting.
- Developed software programs using Lua, JavaScript, C++.
